## PARADENA GIRL HONORED.

She Will Christen a New Government Vessel in Honor of Her Father.

BY DIRECT WIRE TO THE TIMES. (Exclusive Dispatch.) Miss Maud Morrison, daughter of the late Capt. Theophilus W. Morrison, U.S.A., of Pittsburgh, Pa., arrived in Washington, D. C., today from Pasadena, Cal., for the purpose of christening a new government steamer, named in her father's memory.

Miss Morrison, who had been in the sixteenth regiment for a number of years and was well known, was one of the first officers killed at San Juan.

The vessel will be launched from the shipyard of the Puget & Jones Company. It will be used in the service of the quartermaster's department in New York harbor. The craft is eighty-six feet long, twin screws and to have a speed of twelve statute miles an hour.

WILL BURN TOWN. Oakland Has Six Fires of Incendiary Origin in One Night, and Citizens Are Aroused.

BY THE ASSOCIATED PRESS.—A.M. (Exclusive Dispatch.) Oakland, April 10.—Much alarm has been occasioned at Oakland, Cal., by alleged attempts during the past two days to burn the town, and John Scholch, a bicycle dealer, and John Greig, a demoted old man, are in the city, having been arrested, but two were released.

Six fires were started, the first alarm being turned in early yesterday morning. It occurred in the rear of Scholch's bicycle shop, which he carried some insurance. In the afternoon there was a fire in an old shed in the Mexican quarter, and then one in Dr. Edw. Scott's barn.

At 2:30 a rooming house in the rear of the Neuhamer Hotel was discovered to be ablaze, entailing a loss of \$1000. The destruction being total. Shortly after midnight a fire was discovered in a barn.

Outside of the rooming-house fire, the latest fire was a small one in a building recently installed in the town, and it is thought the fire may have been set by small boys to see the engines at work. The engines proved effective.

There is no direct evidence against the two men, who have been taken to the city and are being held in jail. The citizens were greatly excited last night, and armed guards patrolled the town.

THREE END LIVES. SUICIDES ARE EPIDEMIC. (BY THE ASSOCIATED PRESS.—P.M.) SAN FRANCISCO, April 10.—Three cases of suicide were reported today to the coroner. Warren H. Simmons, a furniture packer, was found dead in his room, having been asphyxiated by gas which he had left flowing from an open jet. He had hinted at suicide and it is thought his death was not accidental. Peter Dowell, a painter, while suffering from depression, jumped from a third-story window this morning and was instantly killed.

He left a note stating his intention to commit suicide. An unidentified stevedore hanged himself in the ruins of a pickle factory on Filbert street, where his lifeless body was found.

SLOPE BRIEFS. Justice Takes Oath. SAN FRANCISCO, April 10.—Former Justice of the Supreme Court of California, W. C. Van Fleet, today took the oath of office as United States District Judge for the recently created Northern District of California before Judge DeLoach. He will enter upon the discharge of his duties tomorrow, sitting in the circuit court.

CLAIMS INNOCENCE. KANSAS CITY, April 10.—H. H. Tucker, Jr., had not perfected his bond up to early this afternoon. He issued a statement today that he was innocent of the charge of having been involved in the amount of money received and paid by the officers of the Uncle Sam Oil Company. He furnished today a copy of the financial statement of the company's affairs, dated April 10, which shows total receipts from all sources of \$1,070,363, and the amount expended for all purposes, including cash in banks, balances this amount.

WAS ACCUSED BY THE PASTOR OF having killed several young women teachers and of having killed one of them, Miss Randall. Everett sought to recover \$20,000 damages. Miss Randall told the jury that when she went to Everett's office in the Hartford building to watch a street parade, the Sunday-school worker embraced and kissed her and that she was compelled to threaten him with a revolver, and that she was snatched from Everett's desk in order to make her escape.

FOUND ARSENIC IN THE FLOUR. Impetus was given the police investigation into the death of Mrs. Mary Mette, 249 Harding avenue, and the illness of five other members of the family today when analysis of the flour which was mixed in Bohemian cakes eaten by the Mettes proved that it contained large quantities of arsenic. Members of the Mette family hold life insurance policies aggregating \$4000. Mrs. Mette, who died Saturday, carried \$500 insurance. Despite the assertion that Emil Saldek, Mrs. Mette's son-in-law, is in California, the police believe that he is still in Chicago.

AN ANGELENO WEDS. A pretty Kenwood wedding this evening was that of Miss Harriet Marguerite Low, daughter of Mr. and Mrs. Willard Low, No. 497 Lake avenue, and James M. B. Irvine of Los Angeles. They were married at the family residence of the bride, the ceremony being performed by Rev. Herman Page of St. Paul's Episcopal Church. In compliance to the bride the whole house was lavishly trimmed with her name flowers, "Marguerite," and during the ceremony the bridal couple stood under a huge wedding bell of Marguerites.

TOLEMITES WALK OUT OF Big Bihee Mines. Call Employers Unfair Because of Blacklist.

Move Inaugurated by Bunch of Slavonians. (BY DIRECT WIRE TO THE TIMES.) BISHOP (APRIL 10).—(Exclusive Dispatch.) The Western Federation of Miners went on strike today at Bishop, and aim that 1500 miners have walked out of the Copper Queen, Calumet, and Bonanza Circle mines. The mine superintendents admit losses of only \$500 in their working force.

Yesterday the camp was placarded with a proclamation declaring the employing companies unfair because of their enforcement of a blacklist against active unionists. It was especially deplorable that it was sought to close the camp to non-union miners, or that the objection was made to a wage scale of \$1 for a day of eight hours.

The streets of Bishop are crowded tonight with miners who are crowded out of the mines for an indefinite period rather than submit to union rules.

Only sixty-seven men, most of them Slavonians, participated in the union meeting that called the strike. The copper companies have immense supplies at their "setters at Douglas," which he carried some insurance. In the afternoon there was a fire in an old shed in the Mexican quarter, and then one in Dr. Edw. Scott's barn.

TOLEMITES WALK OUT OF Big Bihee Mines. Call Employers Unfair Because of Blacklist.

Move Inaugurated by Bunch of Slavonians. (BY DIRECT WIRE TO THE TIMES.) BISHOP (APRIL 10).—(Exclusive Dispatch.) The Western Federation of Miners went on strike today at Bishop, and aim that 1500 miners have walked out of the Copper Queen, Calumet, and Bonanza Circle mines. The mine superintendents admit losses of only \$500 in their working force.

Yesterday the camp was placarded with a proclamation declaring the employing companies unfair because of their enforcement of a blacklist against active unionists. It was especially deplorable that it was sought to close the camp to non

**NEW POLICY FOR COUNTRY CLUB.**

**OCEAN PARK TO ENTERTAIN TENNIS TOURNAMENT.**  
New Management Under Direction of Officers Just Elected Promises Better Things in Way of Accommodations to Racket Players—Ojai Matches Come Next.  
The Ocean Park Country Club, which has been the seat of the big summer championship tennis tournaments for many years, has undergone a change of management and a reorganization in the conditions under which this year's tournaments are held.  
The reorganization of the club amounts to the complete dropping out of the old Country Club and the organization of a new club that has taken a lease upon the clubhouse and grounds. The new club is made up of 100 charter members, drawn from the residents of Ocean Park and the beach towns adjacent thereto. The following officers have been elected: T. H. DuPont, president; C. E. Moskimer, vice president, and J. W. Lawrence, secretary-treasurer.  
Several features said to have been maintained through the old club were objectionable to those who conducted the tournaments at Ocean Park last summer, and it was deemed advisable to hold the Southern California championship tournament on the Central Courts in South Pasadena in 1907. In view of the change, it is believed that the tradition of holding the tournament at Ocean Park can be continued as the club will be carried on as a first-class country club, without the adjuncts that were responsible for the objections last season. The club will hold the annual Fourth of July tournament this year as usual.  
The majority of the schools have

chosen their representatives for the Ojai Intercollegiate tennis tournament, which begins on April 24, and an unusually large delegation is assured for the Nordhoff event this year. Representatives of the girls' preparatory schools will take part in the tournament for the first time. Bell, Browne, Sinnabough and possibly others of the local tennis aristocracy will make the trip in all probability, as one or two of the northern players are expected, the class of play in the open events will be high when the first round of the National League will be played in temperature close to the freezing point.

**ENJOYABLE WALKING TRIP.**  
Polytechnic Students Tramp to Baldwin's Ranch, Returning by Way of San Gabriel.  
A dozen members of the Polytechnic High School Walking Club celebrated vacation Tuesday and yesterday by taking a long walking trip. They started Tuesday morning, and returned late yesterday afternoon, having covered a distance of over thirty-six miles.  
The party left Garvanza at 10 o'clock and reached Sierra Madre three hours later, where camp was made. After a visit to Sturtevant's Camp, twenty-four miles were covered the first day out. The next morning the students went on to Baldwin's ranch, returning to Garvanza by way of San Gabriel and Alhambra. The party was in charge of H. E. Kile, teacher of book-keeping at Polytechnic. The club has planned a number of similar outings.

**BIG LEAGUES PLAY TODAY.**  
[BY DIRECT WIRE TO THE TIMES.] CHICAGO, April 10.—[Exclusive Dispatch.] The Chicago Cubs and the St. Louis Cardinals probably will not have to bat snowballs around the diamond tomorrow, but the indications tonight are that the first Chicago game of the National League will be played in temperature close to the freezing point.  
The West side grounds are in fine condition and despite cold weather the fans are primed to see a fast game with the rejuvenated Cardinals who arrived tonight in high feather as a result of their triumph over the St. Louis Browns.  
Manager Chance represents the Cubs in first class condition to win the pennant struggle. Frank Schulte and Joe Tinker will be absent, but with Hoffman filling in at short and Randall, field, there is little apprehension in the Cub camp. Schulte is suffering from a "Charley horse." Tinker is almost recovered from the operation for appendicitis.  
Johnny Kling is slated to warm the bench tomorrow, and watch Pat Moran do the receiving stunt from either Lundgren or Pfeister. For the Cardinals, Heebe, the Cub cut-off, is the most likely to do the slab work, with Marshall behind the bat.

**RACING AT OAKLAND.**  
Four Favorites Win Events in Which the Favorites Are Very Close and Exciting.  
[BY THE ASSOCIATED PRESS.—P.M.] SAN FRANCISCO, April 10.—Close and exciting finishes marked the racing at Oakland today. The feature was the Black Rose Handicap at a mile and a sixteenth with a value of \$1000. It resulted in a nose victory for Rapid Water the favorite, on which Fletcher outdrove W. Kelly astride Vox Populi. Inflammable beat Iras a nose in the mile and a half race. Thirty-three books were in line. Result:  
Five furlongs: Adena, 30 (A).

Brown, 11 to 2, won; Harvel, 110 (Knapp), 3 to 1, second; College Widow, 105 (H. Smith), 4 to 1, third; time, 1:01 3/4. Wabob, Stanley Fay, Brookline, Vanna and Cecylus, also ran.  
One mile and a half: Inflammable, 107 (Grote), 3 to 1, won; Iras, 109 (Logan), 11 to 2, second; Terralain, 10 (W. Kelly), 7 to 1, third; time, 2:38. Rostof, Ink, Graftor and Royal Red finished as named.

**Right Breathing Cures Catarrh**  
Simple Way to Kill Catarrhal Germs in Nose, Throat and Lungs.  
The only natural and common sense method known for the cure of catarrhal troubles is Hy-o-mel. It is breathed through an ingenious pocket inhaler, so that its medicated air reaches the most remote air-cells of the nose, throat and lungs, killing all catarrhal germs, soothing the irritated mucous membranes, and restoring a healthy condition.  
If you suffer from catarrhal troubles, such as offensive breath, raising of mucus, frequent sneezing, husky voice, discharge from the nose, drooping in the throat, loss of strength, spasmodic coughing, or a feeling of tightness across the upper part of the chest, you should begin to use Hy-o-mel at once. It will destroy all disease germs in the nose, throat and lungs, and provide the blood with additional oxygen.  
We do not want anyone's money unless Hyomel gives relief and cure, and we absolutely agree that money will be refunded unless the remedy gives satisfaction.  
All druggists should be able to supply you with Hyomel or we will send it by mail on receipt of price, \$1.00, and every package is sold with the distinct understanding that it costs nothing unless it cures. Booth's Hyomel Company, Buffalo, N. Y.

## Pre-eminence

Alfred Benjamin & Co's  
Incomparable Smart Clothes

**TAKE** advantage of the highest skill known in the craft of tailoring, and wear an Alfred Benjamin suit—the product of America's highest-paid, expert cutters and designers.

Does it not seem unreasonable to expect equal style at the hands of a local cutter who has had no experience beyond following the lines of fashion prescribed by others?

The genius of Alfred Benjamin tailors is shown in the stunning effects—the princely set of shoulders—the elegance, refinement and character of every suit.

Instead of a distinction it has become an indication of "behind-the-times" to wear the dull, styleless clothing produced by inexperienced tailor shops.

Let us show you the incomparable Alfred Benjamin suits—Prices \$18 to \$50.

## The Smith Premier Typewriter

The fact that the Smith Premier Typewriter is used in every civilized country on the globe is not so important as the further fact that the demand increases year after year.

The reputation of the Smith Premier is world-wide. World-wide use has made it so.

## WHAT DO YOU KNOW OF UNIT OWNERSHIP

If It Is a Safe Investment and Bring Larger Returns than You Capital Is Now Doing, Isn't It Worth Investigating?

Suppose a friend of yours—a friend who had done you turns and whom you would like to see do well and would way you possibly could—suppose this friend came to you and said: "I have been thinking of buying some units in The Trustee Company Property No. 2, and I want your advice as to the company's method of investments."

## What Could You Tell Him?

Could you explain to him that The Trustee Company is an independent unit of ownership in business property, the best business section of Los Angeles, and that this company is organized and is operated by Los Angeles business men of standing and reputation who have invested their own money and that their profits are wholly contingent upon the successful management of its affairs?

You might not know this, and as a result cause you miss the very kind of an investment he wants.

We want you to understand fully how The Trustee Company is doing business. We don't want you to think this is a matter of concern, or a syndicate speculation, or that we are selling the purpose of raising money with which to build office buildings.

## Business Property Best

Our plan of unit-ownership in improved business property should be understood by everyone, because there is no better investment for those who desire a safe place for their money at the same time a larger income than offered by savings banks, small business affairs and experience in investments of all out business property. If a large investor comes to Los Angeles to buy property, he goes to the business center and either unimproved piece of ground and constructs a building to attract high-class tenants, or he buys property with a dividend-paying building on it. The investor who has a few dollars or more at his disposal can do this. Through the ownership plan of The Trustee Company small, permanent, as well as large ones, can be made in valuable business properties.

For example, consider Trustee Property No. 2, 37 South Broadway—in which unit interests are now being sold on a lot 60x155 feet. When completed, the ground and building represent an investment of \$25,000. Any one can easily if the property is worth this figure. It is divided into 100 units of \$250.00 each. If the property as a whole is worth \$25,000, then each unit is worth \$250.00. You can buy as many units as you wish, or you can buy one-tenth of a unit for \$25.00. A unit-owner in this property is wholly independent of all other unit-owners, and as each Trustee Company property is handled as an investment in one property is not affected by any other property of The Trustee Company can be mortgaged, the title providing that no encumbrance shall ever be placed upon it, provides just how the property shall be managed, which is

## Dividends to Unit Owners

The net surplus from this property is divided pro rata to unit-owners and The Trustee Company receives nothing but dividends are paid the unit-owners.

Such an investment when carefully considered, is the most conservative. During the construction of the building, unit-owners will be paid interest upon their investments of 6 per cent. per annum.

We have published a booklet which gives in detail the stages of Trustee Property No. 2 as an investment, and explains fully the plan of unit-ownership of business property. Booklet will be furnished upon application either by mail or in person.

## Of Boys' & Children's Clothing Bought By The Bon Marche At 60¢ On The Dollar

F. G. Kahn of 457 South Broadway—the man who coined the phrase "KAHN'S KORREKT KLOTHES"—found that his growing men's clothing business demanded more room, and decided to close out his boys' and children's department. The Bon Marche made an offer on the stock of 60c on the dollar. The offer was accepted. "KAHN'S KORREKT KLOTHING" for boys is now on sale at The Bon Marche. Mr. Kahn's only reason for selling his boys' stock to The Bon Marche at such a price was—as before stated—because he needed the room this department occupied to properly care for his growing business in men's clothing.

Now, mothers in Los Angeles, here is your opportunity. Kahn's fine juvenile clothing, the very latest styles (Kahn operated his boys' and children's department but a year.) Kahn's clothing at 60c on the dollar! The values are simply unprecedented. Attend this sale now. While the bargains are many the selling will be fast—so come early for the big values.

the way of naval armament, the exposure of our merchant marine to our swift cruisers would do much to equalize the equation between the two nations. We could practically starve England in case of a war continued for from six months to a year. As we refused nearly a century ago to stop privatizing, we would probably hesitate at the present time to exclude the merchant marines of the nations from the sphere of war.

There is one class of international property which certainly should be neutralized. The nations have at an enormous expense laid down submarine telegraph lines connecting the whole world by these little strands which annihilate time and space. England could probably seize every one of these channels of intercommunication and utilize them for her own benefit in case of a war with some foreign foe. The danger of such a proceeding would certainly suggest to the nations the immediate destruction of every line that could be reached. The injury to the civilization of the world would be almost incalculable. These lines of international communication should at once be neutralized.

## SAN FRANCISCO'S APOLOGY.

San Francisco, April 11.—David Starr Jordan, the president of Stanford University, is one of the most distinguished men of science of the day. In his own peculiar branch, ichthyology, he ranks with Agassiz. In certain quarters, by those who know him well, he is regarded as a peculiarly able man in the science and practice of education.

To be sure, there are others who have had close opportunity of studying the man, his methods and work, who are not quite so sure of his great ability as an educator.

The practical work has long ago come to regard Prof. Jordan as a very uncertain leader, indeed as a misleader, in every subject outside of these specialties of his own. In all matters relating to industrial theories and sociology generally, he is regarded by the practical people of the country as a decidedly unwise man.

His latest utterances have been upon the political corruption in San Francisco, which has brought that city into such unenviable prominence in these later days. President Jordan, in a recent speech, took upon himself the role of apologist for the city of San Francisco. The view he tried to set forth was that San Francisco is really no worse than other cities in the United States. He expressed the opinion that the only difference is that the San Francisco grafters, bribe-takers and generally have been caught, while in other cities the catching is a thing to be done.

No more is a city in the United States which furnishes any very admirable model of municipal government. There is too much ring politics, too much inefficient service, too much grafting in every municipality in the land. There may not be much direct dishonesty. But if one dollar a year is directly stolen, that constitutes too much dishonesty. Yet, making all allowance for the delinquencies of municipal officers generally, Germany would probably be well content to vote for a proposition to limit the military armament on the land side of the equation of war between the nations. But when we glance at naval armament, England has an equipment more than competent to meet the combined navies of any other two powers in the world. That is the way the equation looks upon paper. Germany is making great efforts at enormous sacrifice, to put herself on a more nearly equal footing with her close neighbor and dangerous rival. All the influence of Germany will be thrown against the limitation at this time of naval armament.

Take our own case. We are sufficiently superior to our Pacific rival, Japan, to be fairly content. This view prevails until we consider the enormous littoral on two oceans that we would be called to defend in case of war, compared with the comparatively small coast defense of our rival. When the Hawaiian and Philippine archipelagos are considered, our disadvantage becomes too apparent. It is a matter of great doubt whether the United States would at the present time vote for a general suspension of the development of naval equipment.

The diplomacy of nations is always selfish. That of England has been particularly able in guarding her own interests. At the close of the war of 1812 and subsequently England definitely brought forward the proposition to forbid the issuing of letters of marque or the practicing of privateering in time of war by the people of any nation. The American privateers had wrought great havoc among the merchant marine of England during the war of 1812. The daring American seamen of the New England coast had brought many rich prizes into port. We have no navy compared with the naval equipment of England in those days, and very promptly declined to change the custom of the ages and give England an enormous advantage over us on sea in case of another war between the two nations.

Here we have a very nice balancing of interests and of fundamental rights. Undoubtedly it would be desirable to eliminate the merchant marine from the sphere of war. It seems certainly a relic of barbarism to allow warships to prey upon the vessels which carry on peaceful vocations. But a fight is waged to be won, not lost, and the old adage that all is fair in love and war will not lose its influence among men yet awhile. That which seems most evidently an abstract matter of justice may be, until we have considered the whole problem, a very unjust thing at the moment. In case of a war with England, to counteract her enormous superiority on the sea in

# Need Any Ribbons?

**Busy times in the Ribbon Section these days, but there's good reason for it. Thrift shoppers appreciate what it means to have the very choicest 4 to 10-inch fancy ribbons offered them under value, when good ribbons are high in price, and hard to get. These pretty Dresdens work up into sashes, hat trimmings or opera bags, the plaids are splendid for hair ribbons, etc., while the Roman stripes are in just the shades and variations that are most preferred this spring.**  
Think of paying only \$3.35 for a five-dollar ribbon that's ten inches wide; \$1.50 for a beautiful Dresden worth \$3 at the least calculation; and so on through the list. Handsome four-inch plaids worth 25c are now 18c a yard; 35c ribbons are 25c. Not a good sort or shade missing.  
And we tie all sashes and hat bows for you free of charge.

# Inexpensive Embroidery Work

**Embroidery workers who like to make things useful as well as ornamental, will be most interested in these pretty "outfits" of several sorts.**  
Lawn apron outfit: to be done in shadow embroidery; with material to complete, 40c.  
Corset cover outfit: stamped on India lawn, with filet motifs and embroidery material to finish; sizes 34 to 40; 75c.  
Baby pillow outfit: stamped on lawn, with filet motif, and hemstitched lawn ruffle; also material to complete; three different designs; \$1 and \$1.25.  
Pin cushion outfit: filet square in center and hemstitched ruffle, with material to complete; 50c.  
Tinted centerpiece outfit: 27 inches wide, with rope-line to embroider; 40c.  
Shirtwaist design outfit: three yards of 40-inch India lawn and embroidery floss to finish; \$1.50.  
Heart baby pillow outfit: filet motif, and hemstitched lawn ruffle; with embroidery floss to complete; 65c.  
Chemise pattern: stamped on fine nainsook; no material included; \$1.

# Handbags Worth to \$3.50. for \$1.50

Choose today at \$1.50.**

# Underpriced Handkerchiefs

**Handkerchief bargains are about as scarce as hen's teeth, these days. Had we not bought in large quantities months ago, we couldn't reduce prices on such staples as**  
All-linen cambric handkerchiefs, with narrow hem, 8c each, 50c doz.  
Sheer quality, 10c each, \$1 dozen.  
Good values at 15c straight.

# ANDERSON & CHANSLOR

**Coffee Satisfaction A. & C. Mocha and Java Blend**

**We come pretty near knowing coffee requisites—we've been blending coffee for years. We know, too, that it takes 40c to buy a pound of quality coffee—notwithstanding the critics.**

**DEATH'S STRANGE HARVEST.**

Father and Daughter Are Victims of Grim Reaper Within a Few Hours.

Side by side on marble slabs in the Pierce Brothers mausoleum, lie the bodies of Elmer Warner and his daughter, Mrs. Shirley. Within a few hours death claimed both in the little home of 2 E. Shirley at Graham station.

Mr. Warner journeyed from South Bend, Ind., to visit his daughter, who was in delicate health. He arrived on Monday and went direct to the Shirley home. Yesterday Mr. Warner suddenly arose from his chair, complained of a dizzy feeling and pitched forward on the floor dead.

Scarcely had the body of her father been taken from the little home than Mrs. Shirley, overcome by the shock, passed away. Before the body of Warner arrived at the morgue a second call was received asking that the corpse of the daughter be sent for.

Coroner Lanterman held an inquest over the bodies yesterday. A post-mortem examination showed that Mr. Warner's death was due to cirrhosis of the liver. Shock, at the sudden death of his father was given as the cause of Mrs. Shirley's death.

The funerals of father and daughter will be held Saturday afternoon at 2 o'clock in "Pierce Brothers" chapel.

# OPEN IN TIME FOR BIG RUSH.

TRAINS WILL RUN ON COAST  
LINE ONCE MORE.

Cavendish Tunnel Reported Reopened—Santa Monica Route to New Clear and Overland Limited Will Start Tomorrow. Also Miles of Freight Cars—Owl Is Late.

There was rejoicing in the headquarters of the two big railroads yesterday when the announcement was made that the washouts and cave-ins which have blocked their lines were remedied and that they would soon be running again on schedule time.

At the office of the Southern Pacific it was stated that the disastrous cave-in of the Santa Monica tunnel above Santa Barbara is nearly cleared away, and the work of making this tunnel absolutely safe is progressing rapidly, and by tomorrow it will again be open for traffic. The regular train schedule over the Coast Line to San Francisco, however, will probably not be placed in effect until Saturday.

The opening of this line again after weeks of idleness causes a feeling of relief among the officials, especially in anticipation of the great rush over the northern route already scheduled for visiting Robles of the Mystic Shrine and other delegates to various conventions and conferences in addition to the extra heavy tourist travel at this time of the year.

The moving up of two locomotives on the Valley line in the Tehachan Mountains at an early hour yesterday morning, by which the line was not blocked that line for hours. The "Owl," which was due yesterday morning, did not reach Los Angeles until 1:30 a. m. last evening. The cars were turned about, cleaned and sent right back as the outward-bound "Owl" about two hours later. The 7:30 and 11:30 went out on time.

## SALT LAKE OPENING.

The other road which will open in the Salt Lake. Word was received yesterday that the track was clear, and tonight the first train will run out, bound for Salt Lake City. Beginning tomorrow it is expected that the regular overland limited to Chicago will begin its regular trips on schedule time.

Hordes of trainloads of freight held up by the washout in Meadow Valley will now be rushed to the coast. Late yesterday afternoon Assistant General Passenger Agent T. C. Pock started out in a "special" on a inspection of the line as far as Caliente and possibly all the way to Salt Lake City. Mr. Pock does not expect to return until next week.

Having lost most of the morning's traffic which had been arrested for in seventy-seven trains for the season, the Salt Lake is congratulating itself, as it were, upon the prospect of making up for lost time with the special schedules for the visitors—Shriners, about fifteen trains, including that of the Grand Potomac from Washington, Mo., with fourteen cars, coming by way of this line.

Assistant General Passenger Agent H. M. Judah of the Southern Pacific is in Los Angeles visiting his son, Floyd A. Judah. Mr. Judah is in conference with the local officers yesterday, and will inspect the Coast Line upon his return.

Senator W. A. Clark of the Salt Lake is helping his rooms at the Alhambra, and is expected to leave for Los Angeles tomorrow. He is rapidly recovering from the cold which he had in Colorado River, and expects to soon be about.

W. O. Whittier of the Salt Lake is at Rhyolite inspecting the terminal facilities for the Las Vegas and Tonopah, also looking after some mining interests. He is expected in Los Angeles by Saturday.

## "DOCKED" REGISTERING.

Time for Compiling With Law Regarding Mutilated Horses Will Expire Next Monday.

N. W. Zimmer, superintendent of the Society for the Prevention of Cruelty to Animals, was kept busy yesterday answering questions about the new law relative to "docked" horses. Many men went in stating that they had just heard of the law, did not know where to register their horses, and also wanted to know the time limit. For several days Mr. Zimmer has been receiving a large number of letters from persons in every town, village and settlement in the county, all asking for light on the subject. A man from Pasadena, who seemed to be nervous lest he be "docked," several dollars, wrote: "I have called at our City Hall and at the City Hall in Los Angeles, and at other places here and there, but no one seems to know anything about this new law. If you or any one else will tell me where to register my horse, I will comply with the law at once." He was informed that he must comply at the office of the County Clerk in Los Angeles. All other applicants were also notified that their horses cannot be registered at any hall, or anywhere else in the county, except at the Courthouse, room 18. The time in which such horses must be registered expires next Monday.

The law states that such horses must be registered within thirty days after the passage of the law. Within sixty days after the passage of the law, any one is liable to arrest and punishment who may have in his possession an unregistered horse with a docked tail. While the registration clause on the 15th, no arrests will be made within thirty days thereafter. Such is the reading of the law.

## ON "MODERN JUDAISM."

The lecture on "Modern Judaism," delivered last evening to an attentive audience at the Gamut Club auditorium by Mrs. Bertha Hirsch Bueck, marked an epoch in the development of mutual understanding and intelligent intercourse between Jew and non-Jew. The several aspects of the discourse viewed the subject in retrospect, in the light of the modern era, and in prospect. The musical programme which followed the lecture was beautiful and striking. It was given by the Ethel Brith Temple choir, and consisted of the following numbers: "My Yod" (Sulzer); by the choir; Genesis xi, verse 16, and Genesis xi, verse 16 (traditional), sung by Chas. Hirsch; Genesis, xxi, verses 17, 18, and Genesis iv, verse 17 (traditional), sung by Joseph Dupuy; "Verhommen" (Sparger); by contralto and quartet; "L'cho Adonai" (McFarlane); by quartet. An informal reception was held at the conclusion of the programme.

(Speculators Play No Part in the  
Upbuilding of Beverly Hills)

Doubtless you will agree that it is a refreshing relief to find residence property which is not urged upon speculators but sold to home-builders.

If you are seriously looking for a home site, one that will combine in the greatest degree every desirable quality, you are almost certain to decide on Beverly Hills.

It will pay you to read the following information.

Let it be known that Beverly Hills is to be carried out not only on the elaborate lines originally planned, but with several new features, making it so altogether attractive that you can hardly appreciate it until you have seen with your own eyes.

To start with, Beverly Hills is just where you would have it located—on the picturesque foothills beyond Hollywood, "between the city and the sea."

It is not a mere subdivision—not a foolish little improved patch setting in the midst of raw country land—nothing like that.

Beverly Hills is a district by itself, sufficiently large to make an entire neighborhood—a district—of lovely homes.

The avenues, for the most part, are laid out in beautiful curves which follow the natural contour of the land.

There are many private estates already sold, on

which country places of a genuine palatial kind will be built.

It is not an idle statement but a fact that Beverly Hills is to be the show place of California—you can already see sufficient evidences to convince you of that.

There are 4 parks—one of them has already been improved with nearly \$3000 worth of shrubbery, flowers, etc.

Streets are oil-tamped with cement curbs; 12-foot parkways and broad sidewalks.

Water, gas, electricity, sewer system—these are not dependent on any future developments but are guaranteed.

The sewer system alone will cost a small fortune.

In addition to present splendid car facilities, Beverly Hills is on two of the new subway lines, which will bring it within fifteen minutes of Los Angeles' business center.

We do not desire to inspire you with any manufactured enthusiasm, but we do wish to lay before you the actual facts.

It will place you under no obligations to visit Beverly Hills. We invite you to do so. Call at our office and let us take you there. We will also give you the names of men who have already bought property and are to immediately erect homes.

Beverly Hills is by far the most highly improved residence property in Southern California.

The more closely Beverly Hills is investigated, the more pleased and interested you will become.

## DENTOL

To Try It Is to Adopt It

If you please, don't merely ask for a dentifrice, ask for DENTOL, the celebrated French dentifrice, prepared according to the formula of Dr. Beaupre.

Dentol (wash, paste and powder) is the only dentifrice possessing through antiseptic properties combined with an exquisite perfume.

Dentol prevents and heals the decay of the teeth, inflammation of gums, bad breath, sore throat, etc. It gives a beautiful white enamel to the teeth and leaves a delightful and lasting sensation of freshness in the mouth.

A few drops on cotton wool at once relieve the most violent toothache.

**10,000 Pairs Men's, Women's and Children's Oxfords**  
Floor Samples and Undelivered Orders of Three Big Factories

In many of the large factories it is impossible to tell just how many pairs of shoes will be required to fill the orders sent in by traveling salesmen; it is often the case that several dozen pairs of one kind remain in the factory after the orders are filled—perhaps a hundred pairs of another kind—again it often happens certain orders for high class shoes, that for various reasons cannot be delivered when promised—consequently were refused by parties for whom made. For these and other reasons, every big factory finds at the end of the season's makeup—hundreds of pairs of their finest shoes on their hands for immediate disposal. This big lot of dependable shoes represents the purchase of our buyer, who has just returned from his trip to the large Eastern factories. Every pair of these shoes are all the very latest in style, the best of all kinds of leathers—shoes suitable for any and all occasions, and every pair of either men's or women's were made to sell at \$2.50, \$3.00, \$3.50 and \$4.00. Every shoe perfect in workmanship and wearing qualities. Sale begins Thursday morning. (See the big window display.)
